

**SHARKSKIN**

**OVERVIEW**

All construction professionals know the importance of a quality roof system. That is why so much research, time and effort goes into specifying and installing the right roofing product for every building.

The SHARKSKIN COMP® is designed to ensure that quality asphalt shingle and metal roof installations are not short-changed by inferior 'old-technology' asphalt felts. The state-of-the-art in recent synthetic roof underlayment advances, SHARKSKIN COMP® is 100% polypropylene product with a 6 month UV exposure rating. It is a tough nailable polymer underlayment. Now for use under metal roof applications. See label instructions.

Thermally stable with a melting point of 320° F, this wind resistant, reinforced product is approved as an alternate to inferior Type 15 and Type 30 roofing felts.

These days you can't afford to open yourself up to the potential liability of inferior roof underlayments. Give your customers a superior roofing system by starting with 'The Ultimate Roof Underlayment'. Specify Sharkskin Comp®.

**SHARKSKIN**  
*Comp* • **The Ultimate Roof Underlayment**

**Improved Fastening**

**Engineered to exceed industry standards for long term moisture protection!**

## Benefits

### **Fantastic Wind Resistance**

Helps eliminate blow-off

### **White/Grey Surface**

Stays cool to work on and keeps buildings cooler during construction

### **Slip-Resistant**

Even in wet or dusty conditions

### **No Expansion/Contraction**

Material remains stable

### **Improved Fastening**

Installs with Standard EG Roofing Nails\* and Hammer Tacker Staples\*

### **Will Not Wrinkle**

Does not absorb moisture

### **Will Not Scar or Melt**

NO Sticky Mess  
Withstands high temperatures

### **Will Not Rot**

Will not rot, dry out or become brittle

### **Provides Secondary Water Barrier Protection**

Against high winds and hail

### **Printed Lay-Line System**

Improves shingle installation  
Patent Pending

### **Light Weight**

Easy to lift, load, and work with  
48" x 250'  
38 lbs. per roll approx.

\* Must be installed per manufactures printed installation labels on each roll.

# SHARKSKIN

The Ultimate Roof Underlayment *COMP*

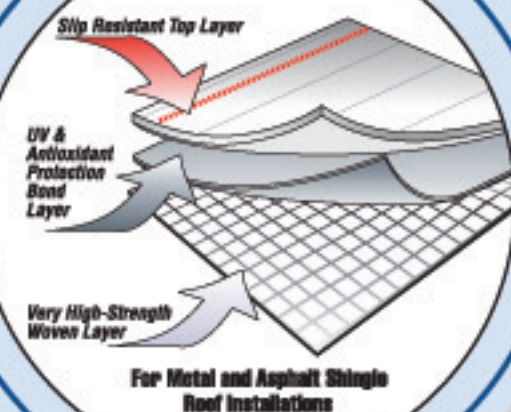

The first and most important step toward an integrated roof system.

**Improved Fastening**

Available with Lay Lines

## Description

Created specifically for all asphalt composition shingle roof systems installations, SHARKSKIN COMP's patented design is the most important step towards an "Integrated Roof System"™ in the harsh & abrasive roof environment. A roof system is only as good as its weakest link. SHARKSKIN COMP was designed to enhance the life of the roof. Ideally suited for use with all fiberglass based asphalt, modified bitumen based composite roof shingles and under metal roof applications\*. SHARKSKIN COMP is an important component when considering long-term moisture protection, durability and ease of installation.

Installs with Standard EG Roofing Nails\* and Hammer Tacker Staples\*

\*Must be installed per manufactures printed installation labels on each roll.
